Miura Private Equity acquires a 60% stake in security company Proytecса

- **Proytecса, with its headquarters in Huesca, is a leading Spanish supplier of technological products and solutions for the security industry.**
- **The three founders of Proytecса maintain the remaining 40% of the Company and will continue to be part of the Management Team.**
- **Miura invests in Proytecса with the aim to consolidate its leadership status in Spain, as well as developing the business at an international level, based on a top-notch portfolio of products of the latest technology.**

Barcelona, 22nd July 2009

Miura Private Equity has acquired a 60% stake in Proytecса, a leading company at a national level in advanced technological products and solutions for the security industry. Proytecса specializes in the design, development, production and marketing of latest technology security products mainly focused on financial institutions, National Security Forces, Ministries and other private companies related to the security industry.

Proytecса's main business lines include: i) security fence for restricted access areas, ii) explosive deactivation robots, iii) security doors for financial institutions, iv) subway access systems, and v) security and surveillance systems. In addition, Proytecса offers a wide range of repair and maintenance services for all its business lines.

Proytecса was established in 2001 as a spin-off of the family business Sallén Electrónica, which was operative since 1988. The Company's headquarters are located in Binéfar (Huesca), and it runs maintenance warehouses in Melilla and Madrid. Proytecса currently has annual sales of approximately €20m and a total workforce around 100 employees.

The investment in Proytecса is set within Miura's project of consolidating the Company as a leader in the industry of security products at a national level, increasing its penetration in key sectors such as railway infrastructures and civil works.

Moreover, the project is highly focused on expanding the Company's international operations, especially in Europe and the Middle East, where various projects have already been set up with local distributors. This international expansion will be developed on the back of a top-notch portfolio of products of the latest technology and an ambitious research and development program to which more than 5% of the Company's sales is devoted each year.

About Private Equity

The firm Miura Private Equity, founded in mid 2007 by Luis Seguí and Juan Leach, and chaired by Juan Rosell, currently manages Miura Fund I, which was closed in mid 2008 with a size of €100m to invest in companies with a high potential for growth and consolidation in Spain and Portugal.

The investment in Proytecса is the second transaction of Miura Fund I, following the investment in Grupo Atrezzo last October 2008.
